

FRANCK MULLER
GENEVE

Master of complications

Master Square Collection

The Master Square™ is inspired by Franck Muller's taste for the Art Deco movement. The geometrical purity and symmetry of the lines give this collection a perfectly balanced design. Harmony and balance are the watchwords when it comes to describing the design of the Master Square. With its strong character and various sizes, the Master Square is a must have that will perfectly fit to the wrist of its owner.

Reference	6002 M QZ R D
